Headquarters

Our dedication to provide you better products

Research and development has been a main focus of Motex Group since the founding of our corporation. This has resulted in improved appropriation of new materials and methods of manufacturing-not to mention the development of new and improved products.

A message from the Chairman:

Since 1974, Motex Healthcare Group has been dedicated to develop, manufacture, and market cutting edge medical supplies to address the evolving needs of healthcare workers.

We have expanded our original product line of latex and nitrile gloves, and in the process, have achieved new levels of quality in wound dressings and medical tapes, and have designed innovative facemasks and hoods, which set new standards for comfort. Meanwhile, investment in technological and human resources has enabled Motex Group to ensure rapid, cost-efficient product distribution and direct services to customers anywhere in the world.

At Motex Group, we pride ourselves on innovation, and our commitment to develop advanced products will continue, as we strive for a better tomorrow.

Motex Group CEO

Y.C. CHENG

GLOBAL TOUCH

Taiwan(I)

Modern Healthcare Corp.

The company manufactures and exports a variety of wound dressings, and also serves as the R&D headquarters in developing advanced products and technology, that are ultimately relayed to all Group affiliates.

Taiwan(II)

Center Healthcare technology Co., Ltd.

Center Healthcare specializes in the production of traditional and innovative face masks, hoods, and other non-woven protective products.

Thailand

M. R. I. Co., Ltd.

MRI Co. produces Motex's natural latex medical gloves from raw latex, which is abundant in Thailand. In November 2005, the Group plans to build a second glove factory commenced with the purchase of a plot of land (35,200 m2) in Rayon, Thailand.

Mainland China

Shanghai Motex Healthcare Co., Ltd.

Located in the suburbs of Shanghai, 17 km from downtown, Shanghai Motex manufactures a broad range of medical gloves including synthetic (nitrile) gloves. The company's purpose is to cooperate with Motex's Taiwan and Thailand plant, expanding the Group's products and services.

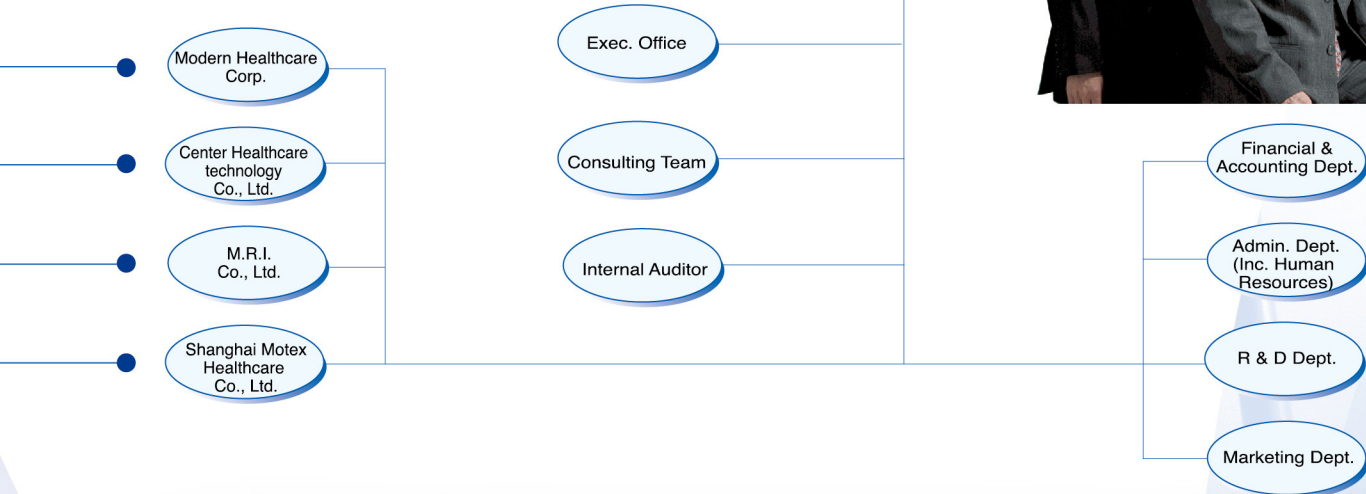

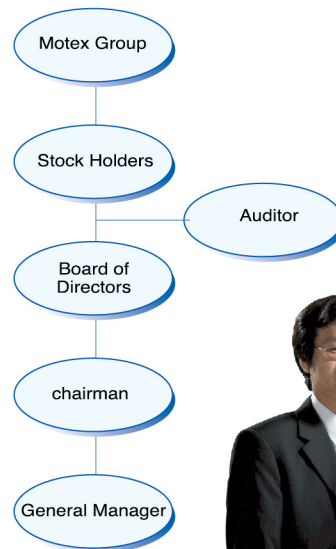

A company builds on superior values - 3 Beliefs

Our enthusiastic management team was established in 1974. Since then, we have endured years of fierce global competition, providing us with valuable experience that will allow us to thrive for years to come. Our business practices are based on our principal beliefs:

We believe in manufacturing quality products. In our line of work, quality can't be sacrificed for increased profit, so we hold each of our products to the highest standards.

We believe in a solid infrastructure. With four manufacturing plants already established, Motex Group has a strong foundation and ample opportunity to expand in the future.

We believe in outstanding customer service. When it comes to serving our customers, we are always at our best, because we know that building trusting business relationships benefits everyone involved.

WORLDWIDE SERVICE NETWORK

Integrated Marketing & Transnational OEM/ODM Cooperation

Integrated Marketing & Transnational OEM/ODM Cooperation

Located in Taipei, Taiwan, Motex Healthcare Corp. is the headquarters of Motex Group and the center of international marketing affairs. The hallmark of Motex Healthcare's leadership strategy is collaboration with other leading global medical product manufacturers. Motex Healthcare has established an effective operations network that extends to global healthcare markets and we encourage customer feedback to improve the quality of our products and the efficiency of our service.

A guarantee of products held to the strictest international standards

The exceptional quality of Motex products is the result of Motex Group's strict procedure for quality control, in which every precaution is taken to ensure cleanliness and safety.

Every step in the manufacturing process—from production, handling, packaging—is subject to numerous inspections in our five-stage system of quality control.

Motex Group, an international GMP manufacturer, has received various certifications, including ISO 9001/2, EN46001/2 and CE as well as United States FDA certifications. All our products have been made in accordance with global environmental standards.

Medical Gloves

Non-Woven face masks

Face Masks

Healthcare professionals are in constant contact with patients, which exposes them to various infectious agents. The Motex Group research team is dedicated to develop materials for our face masks that match the industry's highest standards (N95). Moreover, our award winning Diamond Shape Face Mask, known for its unique structural design, provides the user with more breathing room and minimizes contact between the mouth and mask-ideal for healthcare professionals who need to wear them for long periods of time.

DIAMOND SHAPE FACE MASKS

- SURGICAL FACE MASK
- SURGICAL D2 (N95) FACE MASK
- PROCEDURE FACE MASK

FLAT SHAPE FACE MASKS

- SURGICAL FACE MASK
- PROCEDURE FACE MASK

PRODUCT UNIQUE

2010:

MRI assembled three sets of the newest generation fully automatic glove manufacturing machines.

Motex seek to boost OEM cooperation and international branding its clients.

About our logo

At Motex, we possess both the capacity and the drive to manufacture quality healthcare products that are environmentally friendly. Our logo embodies both our passion for healthcare and our desire to protect the environment--the blue sphere, representing the Earth, is encircled by a green ring, symbolizing health and vigor. Our slogan "more care, more health" describes our mission--promoting a spirit of innovation and enterprise with the ultimate goal of improving healthcare internationally.
